Some of the Young Women Supers Desert.

About fifty young men and twenty-five young women congregated at the Grand opera house yesterday afternoon in response to the request of Miss Davenport's managers for supers to take minor parts in the presentation of "Cleopatra."

It was crude material indeed from which to make performers in the magnificent tableau. Those first to apply were not the most desirable. JUDGE FOSTER'S HEALTH.

George Shultz says it may not improve.

Judge Foster's health is not perceptibly better since he has been in Texas, said Geo. F. Sharrit of the circuit court this morning. "I spent his week with Mr. Foster in Galveston and from reports I had received from there, hoped to find him considerably improved.

I think he is gaining a little strength, however, and is enjoying his trip, but he appears to be in about the same condition as he was when he left here.

After about six weeks more in Galveston he will spend some time at Sour Springs and will probably return here in the early spring.

TO MOVE IT FROM TOPEKA.

The Headquarters of the United States Marshal Going to Leavenworth.

United States Marshal Elect Neely will transfer the general headquarters of the marshal's office from Topeka to Leavenworth, at least that is what he says in Leavenworth and it will probably be done.

He says he sees no reason why the office should be in Topeka. Leavenworth, he says, has a federal building with ample accommodations. He will station a deputy at this office. He has received about 300 letters from persons in this state asking for appointments as deputy marshals, but no appointments will be announced until he has full charge and until his bond has been approved, which will probably be done this week by Judge Williams, who is holding court at Wichita.

It is probable that the fusion element of the Democratic party will be recognized almost exclusively in Mr. Neely's appointments.</p
